# Welcome to Vera Smile

---

At Vera Smile Dental Clinic, our commitment to excellence extends far beyond clinical treatments. We believe that empowering our patients with clear, accurate information is the cornerstone of exceptional oral healthcare. An informed patient is an empowered partner in the journey toward achieving a healthy and confident smile.

The field of dentistry involves a wide range of specialized procedure codes, representing everything from routine preventive care to complex surgical interventions. We understand that navigating these medical classifications can be challenging. For this reason, our Medical Board has developed this comprehensive **Dental Procedure Codes Guide** to serve as your professional reference.

This guide is designed to provide clarity on the specific procedure codes and clinical descriptions used during your consultations, within your treatment plans, and throughout the insurance claim adjudication process. It reflects our dedication to transparency, professional integrity, and patient-centered care.

Thank you for trusting Vera Smile with your dental health. We are honored to be part of your smile transformation.

# 1. Diagnostic Procedures

Clinical evaluations, radiographs, and advanced imaging used to determine a patient's oral health status.

CDT Code(s)	Procedure Description & Corresponding ICD-10 Codes
<b>D0120</b> <b>D0140</b> <b>D0150</b>	<p><b>Clinical Oral Evaluations</b></p> <p><b>Official:</b> Periodic oral evaluation (established patient), limited oral evaluation (problem focused), and comprehensive oral evaluation (new or established patient).</p> <p><i>Explanation: Thorough examinations performed by a dentist to assess overall oral health, evaluate specific dental problems, or establish a baseline for new patients.</i></p> <p><b>Associated ICD-10 Codes:</b> Z01.20, Z01.21, Z13.84, Z86.16, U07.1 .</p>
<b>D0210</b> <b>D0220, D0230</b> <b>D0251</b> <b>D0270 - D0274</b> <b>D0330</b>	<p><b>Radiographic Images (X-Rays)</b></p> <p><b>Official:</b> Intraoral comprehensive series , periapical images , extra-oral posterior images , bitewings (single to four images) , and panoramic radiographic images.</p> <p><i>Explanation: Standard dental X-rays used to visualize the internal structures of teeth, detect cavities between teeth, and evaluate the jawbone and root health.</i></p> <p><b>Associated ICD-10 Codes:</b> Z01.20, Z01.21, Z13.84, Z86.16, U07.1 .</p>

CDT Code(s)	Procedure Description & Corresponding ICD-10 Codes
<p><b>D0372 - D0389</b></p> <p><b>D0701 - D0709</b></p> <p><b>D0999</b></p>	<p><b>Advanced Imaging &amp; Tomosynthesis</b></p> <p><b>Official:</b> Intraoral tomosynthesis (comprehensive, bitewing, periapical) and various image capture only procedures, along with unspecified diagnostic procedures.</p> <p><i>Explanation: Highly detailed, three-dimensional imaging techniques used for complex diagnoses, surgical planning, and in-depth structural analysis.</i></p> <p><b>Associated ICD-10 Codes:</b> Z01.20, Z01.21, Z13.84, Z86.16, U07.1 .</p>

## 2.Preventive Procedures

Treatments and interventions designed to maintain optimal oral hygiene and prevent the onset of dental diseases.

CDT Code(s)	Procedure Description & Corresponding ICD-10 Codes
<p><b>D1110</b></p> <p><b>D1120</b></p>	<p><b>Prophylaxis (Dental Cleaning)</b></p> <p><b>Official:</b> Prophylaxis - adult and prophylaxis - child.</p>

CDT Code(s)	Procedure Description & Corresponding ICD-10 Codes
	<p><i>Explanation: Professional teeth cleaning performed to comprehensively remove plaque, tartar (calculus), and stains to prevent tooth decay and gum disease.</i></p> <p><b>Associated ICD-10 Codes:</b> E11.9, K03.6, K05.1, K05.10, K05.11, K05.30, K05.311 - K05.319, Z33.1, Z72.0.</p>
<p><b>D1206</b></p> <p><b>D1208</b></p>	<p><b>Fluoride Treatments</b></p> <p><b>Official:</b> Topical application of fluoride varnish and topical application of fluoride, excluding varnish.</p> <p><i>Explanation: The application of a concentrated fluoride mineral to the teeth to strengthen the enamel structure and provide heightened resistance against cavities.</i></p> <p><b>Associated ICD-10 Codes:</b> K02.3, K02.61 - K02.63, K02.7, K03.1, K03.2, M35.00, M35.0C.</p>
<p><b>D1330</b></p> <p><b>D1351</b></p> <p><b>D1354</b></p>	<p><b>Oral Hygiene &amp; Protective Sealants</b></p> <p><b>Official:</b> Oral hygiene instructions, sealant - per tooth, and interim caries arresting medicament application - per tooth.</p> <p><i>Explanation: Encompasses professional guidance on maintaining oral hygiene, along with applying protective resin coatings (sealants) or medicaments directly to the teeth to halt decay progression.</i></p> <p><b>Associated ICD-10 Codes:</b> E11.9, K02.3, K02.51 - K02.63, K02.7, K02.9, K03.2, K03.6, K05.00 - K05.10, K05.30 - K05.5, Z33.1, Z72.0.</p>

CDT Code(s)	Procedure Description & Corresponding ICD-10 Codes
<p><b>D1701 - D1714</b></p> <p><b>D1781 - D1783</b></p>	<p><b>Vaccine Administration</b></p> <p><b>Official:</b> Various administration codes for Covid-19 vaccines (Pfizer-BioNTech, Moderna, AstraZeneca, Janssen) and human papillomavirus (HPV) vaccines.</p> <p><i>Explanation: The clinical administration of specific preventive vaccines within the dental practice setting.</i></p> <p><b>Associated ICD-10 Codes:</b> Z23 (Encounter for immunization).</p>

### 3. Restorative Procedures

Treatments designed to repair damaged teeth, restore their natural function, and improve aesthetics.

CDT Code(s)	Procedure Description & Corresponding ICD-10 Codes
<p><b>D2140</b></p> <p><b>D2150</b></p> <p><b>D2160</b></p> <p><b>D2161</b></p>	<p><b>Amalgam Restorations (Fillings)</b></p> <p><b>Official:</b> Amalgam - one to four or more surfaces, primary or permanent.</p> <p><i>Explanation: The traditional method of repairing tooth decay or fractures utilizing a durable metal alloy mixture, typically applied to</i></p>

CDT Code(s)	Procedure Description & Corresponding ICD-10 Codes
	<p><i>back teeth.</i></p> <p><b>Associated ICD-10 Codes:</b> K02.51 – K02.53, K02.61 – K02.63, K03.81, S02.5XXA..</p>
<p><b>D2330</b> <b>D2331</b> <b>D2332</b> <b>D2335</b></p>	<p><b>Resin-Based Composite Restorations (Anterior)</b></p> <p><b>Official:</b> Resin-based composite – one to four or more surfaces or involving incisal angle (anterior).</p> <p><i>Explanation: The placement of tooth-colored fillings on the front teeth to treat cavities or repair damage, blending seamlessly with the natural tooth color.</i></p> <p><b>Associated ICD-10 Codes:</b> K00.2, K02.51 – K02.53, K02.61 – K02.63, K03.1, K03.2, K03.81, S02.5XXA.</p>
<p><b>D2391 – D2394</b></p>	<p><b>Resin-Based Composite Restorations (Posterior)</b></p> <p><b>Official:</b> Resin-based composite – one to four or more surfaces, posterior.</p> <p><i>Explanation: Applying durable, tooth-colored resin materials to the chewing surfaces of back teeth to restore areas affected by decay or wear.</i></p> <p><b>Associated ICD-10 Codes:</b> K02.51 – K02.53, K02.61 – K02.63, K02.7, K03.1, K03.2, K03.81, S02.5XXA.</p>
<p><b>D2740</b> <b>D2750 – D2753</b></p>	<p><b>Crowns (Porcelain, Metal, Titanium)</b></p> <p><b>Official:</b> Crown – porcelain/ceramic, porcelain fused to metal (various</p>

CDT Code(s)	Procedure Description & Corresponding ICD-10 Codes
<b>D2790 - D2794</b>	<p>alloys), full cast metal, and titanium.</p> <p><i>Explanation: Custom-made caps that completely encase a damaged tooth to restore its original shape, size, strength, and appearance. Materials vary from highly aesthetic ceramics to durable metals.</i></p> <p><b>Associated ICD-10 Codes:</b> K00.2, K02.52, K02.53, K02.62, K02.63, S02.5XXA.</p>

## 4. Endodontic Procedures

Treatments focusing on the inner pulp (nerve tissue) and roots of the teeth, primarily aimed at curing infections and saving the natural tooth.

CDT Code(s)	Procedure Description & Corresponding ICD-10 Codes
<b>D3110</b> <b>D3120</b> <b>D3220</b>	<p><b>Pulp Capping &amp; Pulpotomy</b></p> <p><b>Official:</b> Pulp cap - direct/indirect and therapeutic pulpotomy.</p> <p><i>Explanation: The application of medication directly over an exposed or nearly exposed dental nerve to promote healing. Pulpotomy involves</i></p>

CDT Code(s)	Procedure Description & Corresponding ICD-10 Codes
	<p><i>the partial removal of inflamed nerve tissue, often performed to save a child's primary tooth.</i></p> <p><b>Associated ICD-10 Codes:</b> K02.52, K02.53, K02.62, K02.63, K04.0, S02.5XXA.</p>
<p><b>D3310</b> <b>D3320</b> <b>D3330</b></p>	<p><b>Root Canal Therapy</b></p> <p><b>Official:</b> Endodontic therapy for anterior tooth, premolar tooth, and molar tooth.</p> <p><i>Explanation: The comprehensive process of removing infected or dead nerve tissue from within the tooth's roots, followed by cleaning and sealing the internal canals to cure infection and preserve the tooth structure.</i></p> <p><b>Associated ICD-10 Codes:</b> K02.53, K02.63, K03.81, K03.89, K04.0, K04.1, K04.5 - K04.99, K05.5, K08.8 - K08.89, S02.5XXA.</p>
<p><b>D3346</b> <b>D3347</b> <b>D3348</b></p>	<p><b>Retreatment of Previous Root Canal</b></p> <p><b>Official:</b> Retreatment of previous root canal therapy - anterior, premolar, and molar.</p> <p><i>Explanation: A secondary endodontic procedure performed when a previously treated root canal fails to heal properly or develops a new infection, requiring the removal of old filling materials to re-clean and reseal the canals.</i></p> <p><b>Associated ICD-10 Codes:</b> K08.59, M27.5, M27.51 - M27.59.</p>

## 5. Periodontics

Treatments focusing on the health of the gums, alveolar bone, and supporting structures of the teeth.

CDT Code(s)	Procedure Description & Corresponding ICD-10 Codes
<p><b>D4210 - D4212</b></p> <p><b>D4240 - D4241</b></p> <p><b>D4249</b></p> <p><b>D4260 - D4261</b></p>	<p><b>Surgical Periodontics</b></p> <p><b>Official:</b> Gingivectomy/gingivoplasty, gingival flap procedures, clinical crown lengthening (hard tissue), and osseous surgery.</p> <p><i>Explanation: Surgical interventions to reshape diseased gum tissues, access underlying bone for cleaning, or expose more healthy tooth structure to support a future crown or restoration.</i></p> <p><b>Associated ICD-10 Codes:</b> K05.20 - K05.22, K05.30 - K05.32, K05.6, K06.010 - K06.023, K06.1, K06.8.</p>
<p><b>D4341</b></p> <p><b>D4342</b></p> <p><b>D4346</b></p> <p><b>D4355</b></p>	<p><b>Non-Surgical Periodontics (Deep Cleaning)</b></p> <p><b>Official:</b> Periodontal scaling and root planing (per quadrant), scaling in presence of generalized moderate or severe gingival inflammation, and full mouth debridement.</p> <p><i>Explanation: Intensive cleaning procedures designed to meticulously remove hardened tartar (calculus) and bacterial toxins from below the gumline and smooth the tooth roots, promoting gum reattachment and healing.</i></p> <p><b>Associated ICD-10 Codes:</b> K05.00 - K05.11, K05.30 - K05.32, K05.5,</p>

CDT Code(s)	Procedure Description & Corresponding ICD-10 Codes
	K05.6.
<b>D4910</b>	<p><b>Periodontal Maintenance</b></p> <p><b>Official:</b> Periodontal maintenance.</p> <p><i>Explanation: Ongoing, specialized hygiene appointments scheduled after active periodontal therapy (like root planing) to prevent the recurrence of gum disease and monitor periodontal health.</i></p> <p><b>Associated ICD-10 Codes:</b> K05.30 - K05.32, K05.5, Z51.89.</p>

## 6. Removable Prosthodontics

Custom-fabricated artificial appliances used to replace missing teeth and surrounding tissues that the patient can remove and clean independently.

CDT Code(s)	Procedure Description & Corresponding ICD-10 Codes
<b>D5110</b> <b>D5120</b> <b>D5130</b>	<p><b>Complete &amp; Immediate Dentures</b></p> <p><b>Official:</b> Complete denture - maxillary/mandibular, and immediate</p>

CDT Code(s)	Procedure Description & Corresponding ICD-10 Codes
<p><b>D5140</b></p>	<p>denture - maxillary/mandibular.</p> <p><i>Explanation: The fabrication of a full set of artificial teeth for either the upper or lower jaw. Immediate dentures are placed on the same day that the remaining natural teeth are extracted.</i></p> <p><b>Associated ICD-10 Codes:</b> K08.101 - K08.109 (Complete loss of teeth), K08.401 - K08.409.</p>
<p><b>D5211 - D5214</b> <b>D5221 - D5226</b> <b>D5282 - D5286</b></p>	<p><b>Partial Dentures</b></p> <p><b>Official:</b> Maxillary/mandibular partial dentures (resin base, cast metal framework, flexible base) and removable unilateral partial dentures.</p> <p><i>Explanation: Removable appliances designed to replace one or more missing teeth within an arch, securely attaching to the remaining natural teeth utilizing metal clasps or flexible, tooth-colored materials.</i></p> <p><b>Associated ICD-10 Codes:</b> K08.401 - K08.409 (Partial loss of teeth), K08.411 - K08.499.</p>
<p><b>D5410 - D5422</b> <b>D5511 - D5671</b> <b>D5710 - D5765</b></p>	<p><b>Denture Adjustments, Repairs &amp; Relines</b></p> <p><b>Official:</b> Adjust complete/partial denture, repair broken complete denture base, replace missing or broken teeth, and reline/rebase complete or partial dentures.</p> <p><i>Explanation: Clinical services to modify the fit of a denture for comfort, repair structural damage, replace missing artificial teeth, or resurface the base (reline) to adapt to natural changes in the gums and jawbone.</i></p>

CDT Code(s)	Procedure Description & Corresponding ICD-10 Codes
	<p><b>Associated ICD-10 Codes:</b> Z46.3 (Encounter for fitting and adjustment of dental prosthetic device), K08.109, K08.409.</p>

## 7. Implant Services

Surgical and prosthetic procedures involving the placement of biocompatible titanium posts into the jawbone to replace missing teeth roots.

CDT Code(s)	Procedure Description & Corresponding ICD-10 Codes
<p><b>D6010</b></p> <p><b>D6013</b></p>	<p><b>Surgical Implant Placement</b></p> <p><b>Official:</b> Surgical placement of implant body: endosteal implant, and surgical placement of mini implant.</p> <p><i>Explanation: The surgical insertion of a titanium screw or post into the jawbone, which functions as an artificial root to support a future crown, bridge, or denture.</i></p> <p><b>Associated ICD-10 Codes:</b> K08.101 - K08.109, K08.401 - K08.499, M27.611 - M27.69.</p>

CDT Code(s)	Procedure Description & Corresponding ICD-10 Codes
<p><b>D6056</b> <b>D6057</b> <b>D6058 -</b> <b>D6064</b></p>	<p><b>Implant Abutments &amp; Crowns</b></p> <p><b>Official:</b> Prefabricated/custom abutment and various implant-supported crowns (porcelain, ceramic, or metal).</p> <p><i>Explanation: The clinical placement of the connector piece (abutment) onto the implant, followed by a custom-made porcelain crown to restore the tooth's visible structure.</i></p> <p><b>Associated ICD-10 Codes:</b> K08.101 - K08.109, K08.401 - K08.409, Z46.3.</p>
<p><b>D6104</b> <b>D7950 - D7953</b></p>	<p><b>Bone Grafting &amp; Sinus Augmentation</b></p> <p><b>Official:</b> Bone graft at time of implant placement, sinus augmentation, and ridge preservation.</p> <p><i>Explanation: Procedures performed to add volume or density to the jawbone (often using synthetic or donor bone) to ensure there is a stable foundation for the dental implant.</i></p> <p><b>Associated ICD-10 Codes:</b> K08.21 - K08.26, M27.611 - M27.69.</p>

## 8. Fixed Prosthodontics (Bridges)

Permanent prosthetic restorations, such as bridges, that are securely cemented to

natural teeth or implants and cannot be removed by the patient.

CDT Code(s)	Procedure Description & Corresponding ICD-10 Codes
<p><b>D6210 - D6214</b></p> <p><b>D6240 - D6245</b></p>	<p><b>Fixed Bridge Pontics (Missing Tooth Replacement)</b></p> <p><b>Official:</b> Pontic – cast metal, porcelain fused to metal, or ceramic/porcelain.</p> <p><i>Explanation: The artificial tooth that hangs in the space of a missing tooth, supported by crowns on the adjacent natural teeth or implants.</i></p> <p><b>Associated ICD-10 Codes:</b> K08.401 - K08.499.</p>
<p><b>D6740</b></p> <p><b>D6750 - D6753</b></p> <p><b>D6790 - D6794</b></p>	<p><b>Bridge Retainers (Anchoring Crowns)</b></p> <p><b>Official:</b> Retainer crown – porcelain/ceramic, porcelain fused to metal, full cast metal, or titanium.</p> <p><i>Explanation: The custom-made crowns placed on the supporting teeth at either end of a bridge to anchor the restoration permanently in place.</i></p> <p><b>Associated ICD-10 Codes:</b> K08.401 - K08.499.</p>
<p><b>D6930</b></p> <p><b>D6980</b></p>	<p><b>Recementation &amp; Repair of Fixed Prosthetics</b></p> <p><b>Official:</b> Re-cement or re-bond fixed partial denture and fixed partial denture repair necessitated by restorative material failure.</p> <p><i>Explanation: Clinical services to re-attach a bridge that has become loose or to repair structural damage to the dental materials without replacing the entire bridge.</i></p>

CDT Code(s)	Procedure Description & Corresponding ICD-10 Codes
	<p><b>Associated ICD-10 Codes:</b> K08.530 - K08.539, Z46.3.</p>

## 9.Oral & Maxillofacial Surgery

Surgical procedures involving the extraction of teeth, treatment of facial trauma, and correction of jaw abnormalities.

CDT Code(s)	Procedure Description & Corresponding ICD-10 Codes
<p><b>D7111</b></p> <p><b>D7140</b></p>	<p><b>Extractions (Erupted Teeth)</b></p> <p><b>Official:</b> Extraction, coronal remnants - primary tooth, and extraction, erupted tooth or exposed root.</p> <p><i>Explanation: The routine removal of a visible, erupted tooth or the remaining fragments of a primary (baby) tooth from the jawbone.</i></p> <p><b>Associated ICD-10 Codes:</b> K02.53, K02.63, K04.0 - K04.99, K05.30 - K05.32, K08.401 - K08.499.</p>
<p><b>D7210</b></p> <p><b>D7220 - D7241</b></p> <p><b>D7250</b></p>	<p><b>Surgical Extractions &amp; Impacted Teeth</b></p> <p><b>Official:</b> Surgical removal of erupted tooth, removal of impacted tooth (soft tissue, partially bony, completely bony), and surgical removal of residual tooth roots.</p> <p><i>Explanation: Complex extractions requiring the elevation of gum</i></p>

CDT Code(s)	Procedure Description & Corresponding ICD-10 Codes
	<p><i>tissue or the removal of bone, commonly used for wisdom teeth that are trapped (impacted) below the gumline or fragmented roots.</i></p> <p><b>Associated ICD-10 Codes:</b> K01.0 - K01.1, K08.401 - K08.499.</p>
<p><b>D7310 - D7321</b></p> <p><b>D7340 - D7350</b></p>	<p><b>Jaw Bone Reshaping (Alveoloplasty)</b></p> <p><b>Official:</b> Alveoloplasty in conjunction with/not in conjunction with extractions, and vestibuloplasty.</p> <p><i>Explanation: Surgical procedures performed to smooth, reshape, and prepare the jawbone ridge following tooth extractions, ensuring a comfortable foundation for future dentures or implants.</i></p> <p><b>Associated ICD-10 Codes:</b> M27.611 - M27.69.</p>
<p><b>D7285 - D7286</b></p> <p><b>D7410 - D7465</b></p>	<p><b>Biopsy &amp; Lesion Removal</b></p> <p><b>Official:</b> Incisional biopsy of oral tissue, excision of benign/malignant lesion, and destruction of lesion(s).</p> <p><i>Explanation: The surgical removal of a small tissue sample for diagnostic testing (biopsy), or the complete removal of abnormal growths or lesions from the oral cavity.</i></p> <p><b>Associated ICD-10 Codes:</b> D10.0 - D10.9 (Benign neoplasms of mouth), K09.8, K09.9.</p>

# 10. Orthodontics

Procedures related to the alignment of teeth and the correction of jaw relationships using fixed or removable appliances.

CDT Code(s)	Procedure Description & Corresponding ICD-10 Codes
<p><b>D8070</b> <b>D8080</b> <b>D8090</b></p>	<p><b>Comprehensive Orthodontic Treatment</b></p> <p><b>Official:</b> Comprehensive orthodontic treatment of the transitional dentition, adolescent dentition, and adult dentition.</p> <p><i>Explanation: Extensive treatment utilizing braces or aligners to correct significant bite issues, crowding, or misalignment across the entire dental arch.</i></p> <p><b>Associated ICD-10 Codes:</b> M26.0 - M26.9 (Dentofacial anomalies and malocclusion).</p>
<p><b>D8010 - D8040</b> <b>D8660 - D8670</b></p>	<p><b>Limited Treatment &amp; Periodic Visits</b></p> <p><b>Official:</b> Limited orthodontic treatment and periodic orthodontic treatment visit.</p> <p><i>Explanation: Focused orthodontic care for minor adjustments or specific issues, along with the regular check-up appointments required to monitor progress and adjust appliances.</i></p> <p><b>Associated ICD-10 Codes:</b> M26.0 - M26.9.</p>
<p><b>D8680</b></p>	<p><b>Retention (Retainers)</b></p>

CDT Code(s)	Procedure Description & Corresponding ICD-10 Codes
<b>D8681</b>	<p><b>Official:</b> Orthodontic retention (removal of appliances, construction and placement of retainer(s)) and removable retainer placement.</p> <p><i>Explanation: The final phase of orthodontic care involving the use of custom appliances to maintain the new position of the teeth after braces are removed.</i></p> <p><b>Associated ICD-10 Codes:</b> M26.4 (Malocclusion, unspecified), M26.9.</p>

## 11. Adjunctive General Services

Ancillary services including emergency relief, anesthesia, professional consultations, and specialized mouthguards.

CDT Code(s)	Procedure Description & Corresponding ICD-10 Codes
<b>D9110</b>	<p><b>Emergency Relief (Palliative Treatment)</b></p> <p><b>Official:</b> Palliative treatment of dental pain - minor procedure.</p> <p><i>Explanation: Immediate, non-comprehensive treatment provided to temporarily alleviate acute pain, swelling, or discomfort in an emergency situation.</i></p> <p><b>Associated ICD-10 Codes:</b> K04.0, K04.1, K05.20, K05.21, K08.8, S02.5XXA.</p>

CDT Code(s)	Procedure Description & Corresponding ICD-10 Codes
<p><b>D9215</b>  <b>D9222 - D9223</b>  <b>D9230</b>  <b>D9239 - D9243</b></p>	<p><b>Anesthesia &amp; Sedation</b></p> <p><b>Official:</b> Local anesthesia, deep sedation/general anesthesia, inhalation of nitrous oxide (laughing gas), and intravenous (IV) moderate sedation.</p> <p><i>Explanation: The administration of pharmacological agents to ensure patient comfort, ranging from numbing a specific area to various levels of relaxation or controlled unconsciousness.</i></p> <p><b>Associated ICD-10 Codes:</b> Varies by underlying condition requiring procedure.</p>
<p><b>D9310</b></p>	<p><b>Professional Consultations</b></p> <p><b>Official:</b> Consultation - diagnostic service provided by dentist or physician other than requesting dentist/physician.</p> <p><i>Explanation: A diagnostic visit where a specialist or another professional provides an expert opinion on a specific oral health issue or treatment plan.</i></p> <p><b>Associated ICD-10 Codes:</b> Z01.20, Z01.21.</p>
<p><b>D9944 -</b>  <b>D9946</b>  <b>D9951</b></p>	<p><b>Occlusal Guards &amp; Adjustments</b></p> <p><b>Official:</b> Occlusal guard (hard/soft/partial) and occlusal adjustment - limited.</p> <p><i>Explanation: Removable guards worn over the teeth to protect against grinding (bruxism) or clenching, and minor selective reshaping of teeth to improve bite balance.</i></p>

CDT Code(s)	Procedure Description & Corresponding ICD-10 Codes
	<b>Associated ICD-10 Codes:</b> K03.0 (Excessive attrition), K03.81 (Cracked tooth), M26.601 - M26.69 (TMJ disorders).
